The bridge on Kuakini street, the new street connecting Nuuanu with Liliha, has been finished a long time, but it is perfectly inaccessible because the approaches to it are not constructed. A little difficulty took place at the Royal Saloon, last night, between a sailor from the Strathblane and a native. The sailor thumped his adversary, who quickly took his departure in consequence. Later, the saloon was the scene of an impromptu concert, and not a bad one considering the degree of exhilaration which probably prompted it.

Lecture by F. M. English, B. A.

The lecture given by Mr. English at the Y. M. C. A. last evening was both interesting and instructive. The lecturer traced the history of gold in the ancient world, its connection with the wars of Alexander and those of Roman aggression. The course of its history in the modern world was followed and a particularly vivid sketch given of the Spanish conquest of Mexico—a conquest inspired entirely by the thirst for the metal which betrayed the conquerors into a series of the most shocking inhumanities. The lecturer touched lightly on the gold discoveries in California, and closed with a brief characterization of the gold fever and the chase for wealth, exemplified in San Francisco by the unparalleled frequency of insanity and suicide. The lecture was interesting throughout, and was followed by a small but attentive audience.
